## Type W 4 Bolt Style - Vertical Bar

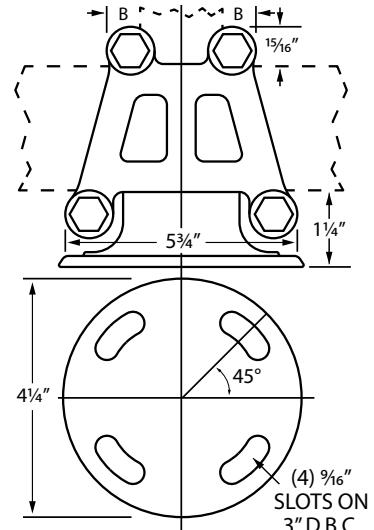

The type "W" conductor support is designed for vertical bus bar systems which have long runs, require tap offs or have the possibility of high short circuit forces. Units have four clamping bolts, nuts and lockwashers. The four bolt style gives the extra strength needed for these applications. Tap of 2" is standard. Clamps are furnished for tight fit of bars and spacers. If slip fit desired note at time of order. Run and tap dimensions, other than shown below, are available.
